ADVACARE SYSTEMS is proud to be the leading provider of durable medical equipment (DME) solutions across the Midwest. We carry only high quality DME products to provide our partners with timely service to ensure excellent patient care.

OUR COMMITMENT

At AdvaCare Systems, our unwavering commitment extends beyond providing quality products; it encompasses timely service (delivery, pickup or repair) that our partners in long-term care and hospice have come to rely on. We prioritize the needs of our customers, patients, and caregivers resulting in prompt and efficient care.

ACCREDITATION AND EXCELLENCE

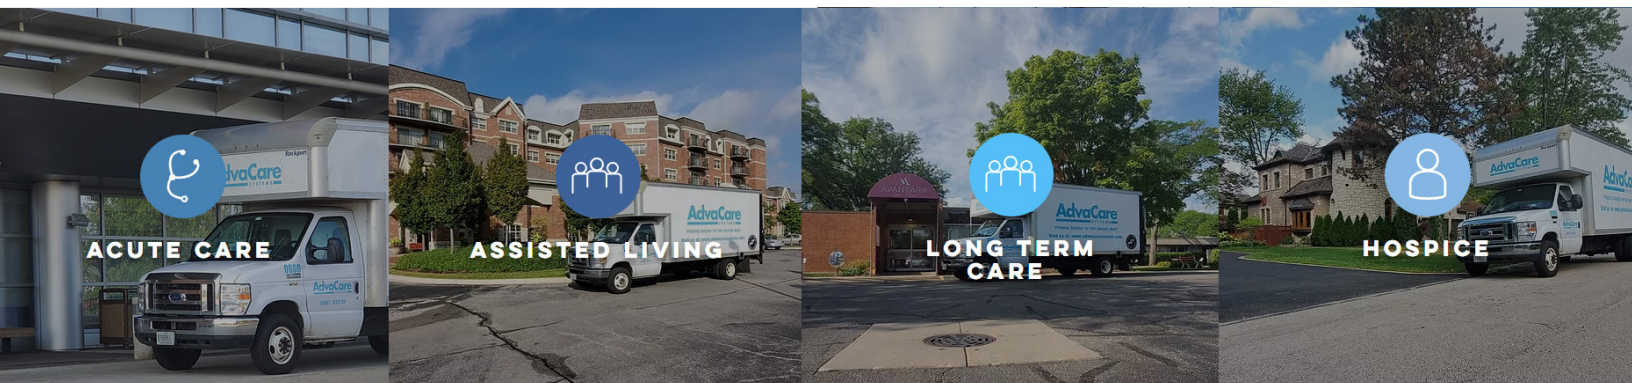

AdvaCare Systems is Joint Commission accredited, a testament to our commitment to excellence. We continually strive to not only meet but exceed industry standards, ensuring that our products and services consistently meet the evolving needs of our partners.

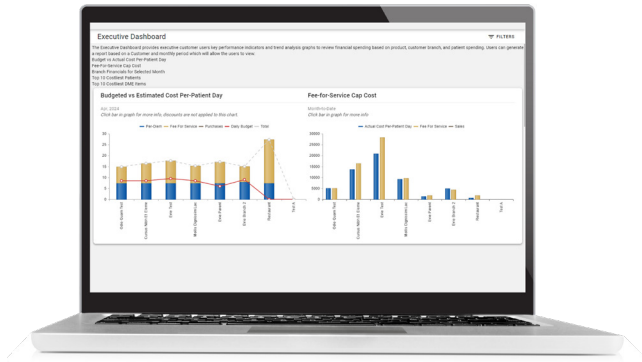

INNOVATIVE SOLUTIONS: ClickDME Technology

Introducing ClickDME technology, we revolutionize the ordering and delivery process for DME. This online ordering platform allows our partners in long-term care and hospice to seamlessly order necessary equipment, guaranteeing timely delivery and integration into patient care plans. This innovative solution underscores our dedication to the advancement of patient care through efficiency and innovation.

RELIABLE PARTNERSHIP

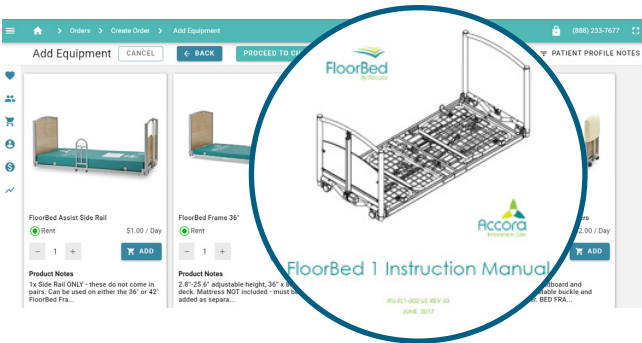

At AdvaCare Systems, we aspire to be more than just a supplier; we aim to be a reliable and trusted partner in the healthcare community. Our team is committed to serving our partners in long-term care and hospice with the utmost attention and compassion they expect and deserve. Through our collaborative approach, we strive to make a positive impact on the lives of those we serve.

Executive Dashboard

- Average cost per patient per day
- Top 10 costliest items on rent
- Top 10 costliest patients
- Data analytics and reporting
- Inventory monitoring
- Real-time data exports

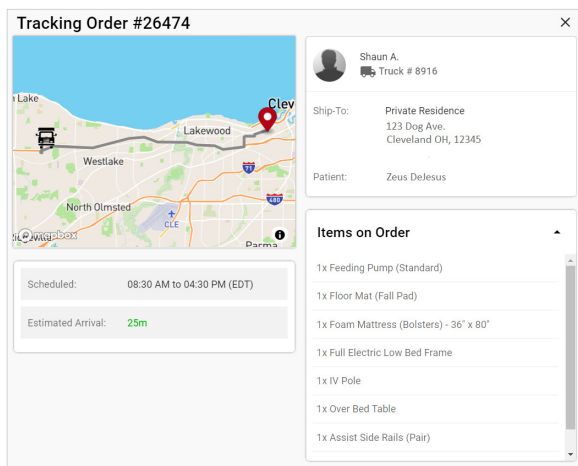

Manufacturer's Guidelines

- **Ease of Access:** All necessary documents, including manufacturer guidelines and product specs, are available for download, ensuring partners have all the information they need at their fingertips.
- **Enhanced Decision-Making:** With access to up-to-date, detailed product information, partners can make informed decisions about the equipment they order, improving patient care outcomes.

System Integrations

- Automate the return of rental equipment upon patient discharge, stopping unnecessary rental days thus reducing DME Expenses.

NEXT STOP

- Live-time delivery updates
- GPS tracking
- Caregiver text alerts
- Accurate ETA's, helping streamline communication

- Anti-Trendelenburg 15 degrees

NISUS NPWT PUMP

NEGATIVE PRESSURE WOUND THERAPY

- Light-weight and portable, weighing less than 2 lbs.
- Interactive interface with easy to read LCD screen
- Step-by-step troubleshooting guide for alarms
- Multiple features for clinical enhancement of negative pressure wound therapy such as: patient runtime, sleep feature, alarm log, lock restriction, Variable Intermittent and Continuous Therapy Modes.

The revolutionary pump gives patients increased mobility without sacrificing the power physicians demand for optimal wound healing results. FDA-approved for use in hospitals, long-term care facilities, and home care settings.

DRESSING KITS FEATURES

- Film drape provides clinical breathability, excellent adherence, and step-by-step instructions
- High tensile strength foam is durable, flexible, and can be cut to contour a variety of wound shapes and sizes, allowing for an individualized fit
- Dome-like silicone port pad is durable to withstand collapsing under NPWT, yet soft and comfortable
- NPWT application instructions printed on the outer pouch allow for user ease and help eliminate user error
- Advanced wound dressing kit provides optimal seal without sacrificing patient comfort, allowing physicians the best modality of treatment for negative pressure wound therapy. Designed for user-friendly application, the kit is comprised of all components necessary to dress a wound for negative pressure wound therapy.

CANISTER FEATURES

- The canister latch design offers a hermetic seal that sustains pressure under variable conditions
- User-friendly design provides one-handed canister release and removal
- State-of-the-art dam design keeps membrane dry; preventing false canister full alarm
- Graduated indications on canister aid in measuring exudate fluid

FOAM MATTRESS

- Dual layer foam replacement mattress
- Zoned comfort foam top layer
- Visco elastic foam foot section
- Firm foam support base layer
- Full length firm side rails
- Urethane 4-way stretch top cover
- Vinyl base cover
- Standard 36" x 80"
- Bariatric 42" x 80"
- Bariatric 48" x 80"

FOAM MATTRESS WITH BUILT-IN SAFETY BOLSTERS

- High grade pressure reduction foam
- Exclusive visco-elastic heel zone
- Soft nylon taffeta cover for water resistance
- Firm bolsters for easy transfer
- Standard 36" x 80"
- Bariatric 42" x 80"
- Bariatric 48" x 80"

ALTERNATING PRESSURE MATTRESS WITH OR WITHOUT BUILT-IN SAFETY BOLSTERS

- Alternating Pressure Therapy System with pump
- This unit can be used non-powered as a Dynamic Self-Adjusting Therapy System
- Adjusts to conform to the specific weight and shape of each patient
- Available With or Without Safety Side Bolsters
- Built-In Integrated Heel Slope
- Eight Horizontal Foam Filled Air Cells
- Vapor Permeable, Four-Way Stretch Cover
- Standard 36" x 80" - 400 lbs. capacity
